## INSANE SUSPECT IN ARSON INVESTIGATION SETS FIRES TO FORM "NEW WORLD IN AIR"

Weird Story Related at County Jail By Maniac From Austria.

### DENIES SCHOOL BURNINGS

Frank Karno, Arrested by State Police at Webster, Says He Is Agent in Two Counties of Bang Formed at Prompts: "Fire Lumber Yards."

In the arrest yesterday afternoon at Webster, Westmoreland county, of Frank Karno, an Austrian, who was placed in jail in Uniontown, the authorities have a maniac who has confessed to burning three lumber yards and a stable at Webster. That is the extent of the confession they have made between the prisoner and the free in Fayette and Westmoreland counties that have caused a loss of \$500,000.

Karno, whose conversation is of the rambling nature of the mentally unbalanced, denies that he had anything to do with the school house burnings; that he ever burned a school house anywhere.

Questioned this morning Karno told the officers he was working under an organization with headquarters in Przemyel, Austria, and that he had been assigned to start fires in Fayette and Westmoreland counties for a peculiar purpose. The theory of his organization, as he related it, is this:

That the smoke from the fires sent by the organization goes into the air and forms a new world—one without ill, by reason of the fact that all germs are killed in the fiery process. This is the only remedy for the troubles now besetting the human race. The world is too old. It has stood too long in one place. It needs a change as a chicken house needs to be changed from spot to spot to allow the sunshine to kill the germs of disease that accumulate. The world will be happy as soon as all germs are destroyed. This will be when his organization has set sufficient fires.

Karno is six feet tall. He has a wild, staring look, with a weirdly serious expression of the face. He told the officers he came to America eight years ago and has lived at Rankin, Webster, Pittsburgh, and Donora. He has two brothers at Donora.

Referring to the organization set up to cure the ill of the world by arson, Karno said the "captain" was John Yelen of Przemyel; the "farmer," Yuzef Bukowaky; the "justice of the peace," John Patay; the "burgess," Tedyk Tydsk; all of Strzygalski, Austria.

While the officers were inclined last night to believe they had the frebber who had terrorized the two counties for weeks, they were today without anything on which to base any such presumption. The prisoner told an entirely different story today from that drawn from him after his arrest when he declared that "irresistible impulses" caused him to start fires and that before he could tell more he must "get some rest so he could think."

The story that the man had confessed to the burning of the Marion school building at Fayette City is denied.

Officers are convinced that no one man started all the fires. They were too widespread.

The arrest was made by state troopers.

## FOREIGNER ROBBED OF \$2,400 SAVINGS OF SEVERAL YEARS

Thief Is His Roommate, Frank Slobe Informs Patrolman Rull.

### MONEY HIDDEN IN TRUNK

Victim Intended to return to Old Country for Remainder of Days But Trip Is Now Off; Thief Described as Having Charlie Chaplin Walk.

The savings of several years, \$2,400, which he had intended to use for a trip to his old home in Europe, was stolen from Frank Slobe, who boards at a South Arch street home, early this morning by a fellow roomer, Alexander Stasich, 30 years old, according to a story told the police.

Slobe retired about 9:30 o'clock last night and Stasich went to the room shortly after midnight. He took a key out of the pocket of the sleeping man's trousers and secured the money which had been secreted in a trunk. It is alleged. He has not been seen since.

Police are searching the city and wires have been sent out to all surrounding cities in an effort to catch the thief.

The victim of the robbery is broken up over his loss. The savings represented much hard work. He has had the money in his trunk about a year, drawing it from an Akron, O., bank.

He is employed by the Baltimore & Ohio railroad, where Stasich also worked. He heaved a big sigh when he reported his loss to Patrolman P. M. Rull this morning. The trip to his old home is now impossible unless the thief is apprehended.

Stasich is described as being five feet, five inches in height, weighing about 160 pounds. He has a red mustache, and a bald head. His front teeth are badly decayed. A distinctive feature is his walk which is something like that of the movie comedian, Charlie Chaplin. He wore a brown suit and black overcoat. He is a Russian Pole.

### HARVEY AT MARION

Colonel Chafers With President-Elect on Administration Plans.

By Associated Press.

MARION, O., Dec. 11.—Burgess, for a new American foreign policy, including the formation of an association of nations, were known by President-elect Harding today from Colonel George Harvey, one of his advisors in formulating his campaign policies toward the Versailles league.

Colonel Harvey, it was said, might remain until next week to give his advice as the administration program develops.

Mr. Harding has indicated that even the groundwork for the association of nations is yet to be laid and that he begins his promise of "meeting or making" here without a definite plan, even on rudimentary forms, for an international council. In asking advice he will seek a program behind which there is assurance an united country, rather than an attempt to put forward any specifications of his own.

### IRISH DEBATE TUESDAY

Discussion of British Government's Policy Relative to Marital Law in Emerald Isle Expected to Test Stability of Lloyd George Cabinet.

By Associated Press.

DUBLIN, Dec. 11.—A plant for the manufacture of bombs was discovered during a raid today in the center of Dublin, including large quantities of arms, ammunition, bombs and gellignite. Three men were arrested, one of whom was shot and wounded while attempting to escape.

LONDON, Dec. 11.—Debate on the government's Irish policy is expected to be opened in the house of commons by Liberal leaders next Tuesday. Announcement of martial law in southwestern Ireland yesterday was accompanied by intimations that debate on the subject was not desired, but it appears probable the lower house of parliament may be called upon to decide whether the cabinet's plans regarding Ireland are to be carried into execution without the acquaintance of the legislative branch of the government. This question, should it come to a vote will test the stability of the Lloyd George cabinet.

Although declaration of martial law in Ireland has been decided upon, the door of negotiations between the government and the Sinn Fein is not considered closed.

It has been announced that three regiments of Pennsylvania infantry will make up the Pennsylvania contingent, and Company D men feel they are going to be among the fortunate ones. There is nothing official forthcoming at this time, however.

### PERRY WELL DRILLED IN

Small Quantity of Gas Found But Not Enough to Save.

The Perryopolis Oil & Gas company has finished its first well near Perryopolis without getting the desired gas. Drilling 3,800 feet into the Bradford sand, was completed Friday. While the well was not entirely dry, gas was not found in paying quantities. Some was encountered in the Murrayville sand and a showing in the Bradford sand but both combined did not make enough to save.

This is a three-well proposition, to be drilled to the Speechley sand, but this being the first it was thought advisable to go to the Bradford strata. The rig will be moved and a second well started at once.

## SCHOOL AUTHORITIES PLAN TO PROSECUTE DEALERS WHO FURNISH MINORS CIGARETS

School authorities of Connellsville are going to take the matter of procuring storekeepers who are violating the cigarette law into their own hands. Several cases of minors smoking cigarettes has been uncovered by the authorities and further cases will mean immediate prosecution.

There are a number of cigar and confectionary dealers in the city who do not discriminate between men and boys in their sales, unquestionably disposing of the packages to anyone who asks for them, it is charged.

To buy cigarettes a young man must be 21 years old. Persons buying the smokes for a minor in order to get them from a storekeeper are violating the law in the same manner as a merchant who sells them directly to a minor.

Dealers in all parts of the city are known to be making a practice of selling the cigarettes to young boys. School authorities intend to enlist the aid of the law officers. No partiality will be shown, it is declared.

## DECISION STAYED TO DECEMBER 23 IN CONTEMPT CASES

Federal Court Too Busy Now to Dispose of Thompson Controversy.

PITTSBURGH, Dec. 11.—No decision was reached by Judge Orr and Judge Thompson in the federal court this morning in the contempt of court proceedings in the J. V. Thompson bankruptcy case at which lien holders of Greene, Fayette and Washington counties and a number of lawyers appeared. After a great volume of facts had been read into the record Judge Orr, saying the court was extremely busy, finally arranged to the satisfaction of both sides to hold further hearing Thursday, December 23. Within a few days of this date a decision will be reached, the court said, inasmuch as some of the writs expire December 31.

Occupying practically all of the morning session with the reading into the record the facts of judgment being revived and writs in the hands of the sheriffs of three counties, the proceedings involved a number of members of the bar of three counties, they being accused of setting the proceedings of reviving them instead of letting them run their course through the bankruptcy court. Evidence was read of a restraining order of federal court being served on those involved and the principals notified to appear.

The alleged contempt case when, instead of allowing the judgments to be disposed of through bankruptcy court, those accused attempted to revive these judgments against Thompson.

"None of the parties concerned ever asked the court for permission to revive the judgments and the federal court never consented thereto," was part of the matter read into the record.

It is the contention that liens on coal lands, particularly in Greene county, have been put on record contrary to the order of the court. These liens will cloud the titles to the coal lands of the estate of the bankruptcy which have been mortgaged or are being sold.

## CONSTANTINE IS ASKED TO RETURN TO GREECE AT ONCE

Plans Provided for Former King to Leave Switzerland and Fleet to Meet Him at Venice.

By Associated Press.

Lucerne, Switzerland, Dec. 11.—Official notification of the result of the plebiscite in Greece and an invitation to return to Athens and resuming the Greek throne immediately were received by former King Constantine here this morning.

The Greek government notified Constantine it will have a Greek cruiser and an escort of warships to receive him and his family at Venice on Wednesday. Because of the health of Queen Sophia plans had been made for Constantine and his family to travel by way of Berlin but on account of arrangement made for his return his plans have been changed and the family will leave Lucerne on an ordinary train, probably Monday.

## GRAHAM CASE GIVEN TO JURY AT 2 O'CLOCK

Arguments Heard During Forenoon and Charge of Court After Noon.

### VERDICT SOON EXPECTED

Final Testimony Taken Friday Afternoon, W. E. Gaffney, Co-Defendant With Edward Colbee Being Examined, Corroborating Colbee's Story.

The jury on the case of Edward Colbee and W. E. Gaffney, state troopers charged with the killing of James Graham in a pistol duel at the home of George Curry in East Francis avenue last February, retired at 2 o'clock today to decide on a verdict. Judge E. H. Reppert began his charge at 1 o'clock and addressed the jury for an hour.

It was expected it would be an hour before the 12 men would return a verdict.

Testimony in the case was completed yesterday afternoon. Gaffney, the other defendant, took the stand following the examination of Colbee. He corroborated the testimony of Colbee and Sergeant Russell as to the shooting.

Gaffney testified that he was ordered to take a position across the street from the Curry home. He said that Mr. and Mrs. Graham stopped at the corner of Francis avenue and Freeman lane and stood there for some time, looking around and at him. To avoid suspicion he said he walked on down the street and they entered the Curry yard, going around the house and stopping at a window of the Curry home and looking in. He said he saw a reflection from the light in the room when the door opened and suddenly it faded away. In a few seconds he said he saw the reflection again and heard a shot fired, and the door closed again. In another few seconds he said he saw a man whom he recognized as Colbee running across the street in a stooped position and disappear from his sight. Another man, whom he took to be Graham, was in the street in the same direction as Colbee took. Gaffney said, and he called to him to halt, firing twice in the air to stop him. Thinking he was making an escape, he said, he ran through a yard in the same direction as he was going and became entangled in some wire. Circling around he became confused as to where he was and came out some distance below on Francis avenue.

Gaffney said he then went to the police station to see if any of the other officers had reported and finding none of them there he returned to the Curry home and later to the police station. Learning from E. E. Budd, in the city proper, of the tragedy he said he went to the hospital.

The witness said he was employed at present by the Cambria Steel company and was discharged from the state force on October 15 last for disobedience of orders. Questioned regarding this he said there was a standing order in the troop that no officer was allowed to visit a sub-station while on furlough or leave of absence and that he had secured a 34-day furlough and visited the sub-station at Hollidaysburg for three days and upon his return to duty was discharged for this violation of orders. Asked if he was not connected with the liquor consignment case, which happened there about that time he said not, although the press had misrepresented him as being so.

Captain Herbert Smith, commander of the troop, was called to the stand to verify the reasons of Gaffney's discharge. He corroborated the statement of Gaffney in full, saying that Gaffney was never arrested for any connection with the liquor case in question and that if he had he would have been prosecuted as the other officers were.

The grand jury investigation into liquor cases yesterday resulted in 41 true bills being returned. Only one was ignored, it being that against M. Drennon of Brownsville. All the judgments were on charges of selling liquor without license with one exception, that of Bonnie Rose who was also charged with selling on Sunday.

A true bill was returned in the case of G. A. Woodward, charged with making and delivering a worthless check.

## NUMBER OF BOXING FANS ANXIOUS TO SEE MICKEY FORKINS AND DUNN AGAIN

Matchmaker For Fayette A. C.  
Urged to Bring Them Here  
Next Saturday Night

### LAME AT H. S. TONIGHT

In view of the fact that P. H. Karsak, manager of Charley Dunn, the Cambridge boxer, has been after Duke Barry, the matchmaker of the Fayette Athletic Club, to rematch Dunn with Mickey Forkins at the next show of the club, a canvass was made of some of the fight fans to ascertain their attitude regarding a return bout between these two sensational boxers. The opinions of practically all the fans were of one accord to book the boys again for the next show, which will be held on December 8. Following are some of the expressions made:

Harry Mason—"Rematch them at once. It's the only card."

Alex Hood—"The best bout ever held here. When are you going to re-sign them?"

Chuck Wagner—"Would not miss their next meeting for anything."

Martin Murphy—"Plattburg never had a better show. Book them again."

Barney O'Toole—"You owe it to the fans to sign them again."

Dr. C. W. Utts—"It will give those who could not see the last bout an opportunity to see what the club is doing in the way of staging real contests."

Dr. T. B. Eckard—"Rematch them. I would not miss the second meeting for anything."

Doug Haire—"The most sensational bout that I ever witnessed. Sign them again."

Johany Pyle—"Nothing would please the fans better than to see them again."

John Myers—"I would travel any distance to see them again in the ring."

Ray Shaw—"It was undoubtedly the best box ever seen here. By all means rematch them."

Bill Turner—"Those kind of bouts will go a long way in putting the game back on its feet here. If I was the matchmaker I would book them again."

Limited space prohibits giving the full list that was compiled, but the desire of a rematch between these two boys would outlive any bout held so far. The next bout between these two heavy hitters should prove even better than the first encounter. As the club's main object is to please its patrons, it is more than likely that Dunn and Forkins will be signed for the show next week.

### HIGH SCHOOL OPENS SEASON WITH GERMAN TWP. TOSSERS

Connellsville High basketball team opened its season tonight at the gymnasium with the German Township High tossers as opponents. Quite a crowd of interested persons will see the first game of the year in order to get a line on the prospects of the coming season for the Cokers.

Coach J. P. Rupp has been working to increase the speed of his aggregation and has built up a defense which will be hard to score on. Nine men have been ordered to report tonight and practically all will get an opportunity to go on the floor.

The season is still young and not a whole lot concerning the visiting aggregation is known. In the past that school has always been hard to beat.

### MORE MEN REPORT AT "Y"

"DOE" BUTTERMORE CAPTAIN  
More men reported at the Baltimore & Ohio Y. M. C. A. for basketball last night. "Doe" Buttermore was elected temporary captain of the team. He will take full charge and whip the outfit into shape.

The team will turn out three nights each week—Monday, Wednesday and Friday. The men will report between 7:30 and 8 o'clock. As the team rounds into shape a schedule will be drawn up.

### GIRL SPONSORS OF CO. D ORGANIZE FLOOR QUINSET

The girl sponsors of Company D, who did much toward filling the ranks at recruiting time, have organized a basketball team. They held their first practice Thursday night. Many of the members of the high school girls' varsity last season are out and indications are that the sponsors will have a team to be proud of.

Among the girls to report were Savilla Struble, Alice Kramer, Leona McManis, Edna McCormick, Katharine Struble, Garnet Guyan, Rosella Guyan, Lillian Franks, Margaret Yohe, Frances and Margaret Buttermore.

The girl teams of the junior and senior classes will play the preliminary to the Coker-German Township contest at the high school tonight.

A number of high school boys not sufficiently experienced in the game to make the team are affiliating themselves with the Y. M. C. A. league this year.

The "Y" teams held a practice yesterday afternoon. Not enough youths have reported to make up the four teams necessary to organize a league. There is some good material on the floor, however, right now for a good "Y" Junior quintet.

The Syracuse cup, the trophy coveted by teams in the W. P. I. A. league, and won by Washington High last season when it defeated Fifth Avenue in a championship game, was presented to that institution yesterday. The day was a red-letter one for the high school.

### "SONG BIRD" HANGED

Italian Youth Slings to Mother and Other Relatives Just Before Death.

CHICAGO, Dec. 11.—Venice Vianna, former choir boy, was hanged in the county jail Friday, his 19th birthday. He was the second member of the Cardinella gang to die on the gallows in the county jail. Samuel Cardinella, the leader, is also under sentence of death.

Vianna, who was known as the "song bird" of the jail because he sang daily for the prisoners, gave his last concert last night when his mother, father, brother, four sisters and about 50 relatives called to say goodbye. At his mother's request he sang Klipfinger's "Mother of Mine."

### CHRISTMAS

Less Than Three Weeks the Day of  
Days Will Be Here.

Of course, you are already planning  
what to give. May we suggest that a  
bank book be part of a holiday account  
opened with \$1.00 or \$2.00? It is a  
practical gift for children or young  
men or women. If you open the ac-  
count at The First National of Con-  
necticut, the bank furnishes, with-  
out charge, a handsome little Liberty  
Bell Bank which you can present with  
the bank book to any one you wish to  
remember in this way on Christmas  
mornings.—Ad.

Recommended to School Children.

This is the season when children  
are subject to colds, coughs and  
croup. Dr. C. Marchand, 36 Lawrence St.,  
Salem, Mass., writes: "I used Foley's  
Kidney and Bladder Pills with good results. I  
had a very bad cold and it gave me  
relief at once, so I recommended it to  
every child that goes to school." This  
standard, low priced medicine loosens  
and clears the throat, relieves  
strangling, coughing and aches, soothes  
breathing, soothes and heals raw, in-  
flamed membranes, and stops tickling  
the throat. Sold everywhere.—Ad.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands  
who are suffering from constipation.  
Dr. Edwards, a practicing physician  
for 17 years and calomel's old-time  
enemy, discovered the formula for Olive  
Tablets while treating patients for  
chronic constipation and torpid liver.  
Dr. Edwards' Olive Tablets do not  
contain calomel, but a healing, soothing  
vegetable laxative.

No matter what the "keynote" of these  
little, olive-colored, olive-colored tablets  
is: They cause the bowels and liver to  
act normally. They never force them to  
act.

If you have a "dark brown mouth"—  
bad breath—a dull, tired feeling—sick  
headache—acid liver—constipation—  
you'll find quick, sure and pleasant re-  
sults from one or two of Dr. Edwards'  
Olive Tablets at bedtime.

Thousands take them every night just  
to keep right. Try them. 15c and 30c.

## Are Washdays Necessary in Winter?

There was a time, back in the days of stone hatchets, when woman was harder than she is today. A biting wind, damp air and slush underfoot did not so much endanger her then.

But is this exposure necessary now? Is woman exercising her best judgment in hanging clothes on the line in winter weather? Is man showing chivalry when he permits it?

A simple and safe solution of this problem is to send your family washing to us—especially during these days while the weatherman is surly.

No washboards or heavy soaps are employed by us. We wash for you in the twentieth century way by letting soft water and billowy suds surge through the fabric. It is a laundering method that saves clothes.

So, also, is our ironing process. We give a charming lustre to your linens not with hot irons, but with special steam heated presses that protect the textiles.

Telephone us. Our driver will call at a definite time for your family bundle. At a definite time, also he will return it. Our method saves you labor and protects you from the rigors of wind and weather.

FARM PRICES DROP 33 PER  
CENT BELOW THOSE IN EFFECT  
AT TIME OF PLANTING CROPS

Situation Confronting Farmers Serious, Agricultural Secretary Says.

## YIELD IS UNPRECEDENTED

By Associated Press.

WASHINGTON, Dec. 11.—American farmers face a situation, due to falling prices for farm products, which should be dealt with as a national problem. Secretary of Agriculture Meredith declared in his first annual report made public today. On November 1 prices were 33 per cent below those prevailing at planting time, the secretary of agriculture said, adding:

"There is perhaps no single solution for the situation which the farmers are now facing, but there are many steps which can and should be taken to place our agriculture on a more satisfactory basis and to stabilize the business of farming, not in the interest of the farmers alone but in the interest of the nation as a whole. A sober national thought with regard to the importance, the absolute necessity, of a sustained agriculture in this country is imperative."

Several remedies were suggested, including extension of cooperative marketing and some means of aiding in carrying over to periods of low production the surplus of years of high production. The question of farm and personal credit must be given more favorable consideration, the secretary declared, and ways be found to aid tenant farmers or men just embarking in the business of agriculture to establish themselves.

"The road between the producer and the consumer should be kept open and made shorter," the report said, to insure fair prices and that the consumer will be able to buy with only "reasonable" profits. In addition to the original selling price, cooperative marketing undoubtedly affords an opportunity to shorten the channel between producer and consumer, the secretary said, as well as opportunity to reduce the cost of production by use of governmental information as to marketing, grading etc.

The farmers of America "have again justified the faith of the nation to meet its requirements," Mr. Meredith declared, and have produced crops estimated to be worth \$13,300,000,000 this year. The combined yield of the 10 principal crops was 13 per cent above the average for five years.

The corn crop of 3,195,000,000 bushels is unprecedented, representing about four-fifths of the world's production, the report said. The sweet potato crop of 108,000,000 bushels is far in excess of any other year except 1919, while the rice crop of 22,000,000 bushels is one-fourth greater than the largest crop ever before harvested. Tobacco production of 1,476,000,000 pounds, the sugar beet crop of 148,000,000 bushels and the potato crop of 421,000,000 bushels stand out as high marks with the apple production of 238,000,000 bushels has been exceeded only once.

"It ought to be a fact," Mr. Meredith continued, "that when the farms of the country produce abundantly, the consuming public will be liberally supplied with food at reasonable prices, the farmer taking his profit because of large production and the consumer receiving his increment of benefit from having an adequate supply at a reasonable cost."

"In general, we should expect it to be true that the farmer's condition is improved in direct proportion to the number of bushels of wheat or corn or the number of bales of cotton he produces. It frequently happens, however, that when all farmers have extraordinarily good crops during the same year low prices have been worse off than he has been in other years with short crops and high prices."

This year, Mr. Meredith said, high prices for farm products continued until they were ready to sell, when the price reduction set in, covering everything the farmers had to sell and materially affecting nothing they were compelled to buy.

"The year's output, produced at an abnormally high cost," the secretary added, "is worth at current prices \$3,000,000,000 less than the smaller crop of 1919 and \$1,000,000,000 less than the still smaller crop of 1918. The best estimate that can now be made indicates that the total value of animal products in 1920 is \$8,767,000,000, or about \$200,000,000 less than in 1919."

"There is probably no other industry or business that could suffer a similar experience and avoid insolvency."

## FORD

THE UNIVERSAL CAR

THE FORD ONE-TON TRUCK

As a matter of fact we might almost as well call it a Three-Ton Truck, for it very rarely carries a smaller sized load. The owners of the Ford truck take advantage of the high qualities of materials which are known to be put in the Ford car, take advantage of the high quality of Ford workmanship which characterizes Ford cars and they overload to the limit. Well, the Ford truck has never broken down with any of these overloads. It delivers expectations and double expectations, so far as carrying capacity is concerned, and while that is not fair to the truck, still the owners are satisfied.

But the Ford one-ton truck, with its aluminum bronze worm drive, its greater weight and strength of frame and its incomparable power plant, it without a reasonable competitor in price, in service, in cost of operation. It is the lowest priced truck on the market, of equal capacity. No other truck on the market operates so economically and we believe there is no other truck that will give as satisfactory and profitable results. Our allotment is limited.
